PROFESSIONAL PROFILE

Full-Funnel Performance Marketer & Acquisition Architect

Numbers → User Intent → Funnel → Creative → Tracking → Net Profit.

For over 5 years I've specialized in Paid Acquisition (Google Ads, Meta, TikTok), CRO, and highly technical analytics (GA4, Server-Side GTM). At Bproduction Agency and Click Brains, I didn't just manage budgets: I diagnosed why campaigns break, why lead quality collapses while lead volume climbs, and why ROAS drops when nothing in Ads Manager has changed.

My methodology is open and verifiable. I audit historical metrics (CPM, CTR, CPC, CPA, ROAS) before touching any campaign. I fix signal loss with Server-Side GTM before scaling. I prevent platforms from buying cheap, low-intent traffic by feeding them accurate conversion signals, and I explain every decision in plain business language without agency jargon.

Open to live account audits, practical hiring tests, and sample dashboard evaluations.

CORE COMPETENCIES

- **Paid Acquisition & Performance Marketing:** Google Ads, Meta Ads, TikTok Ads, Search, Shopping, Performance Max, Display, YouTube Ads, Demand Gen, remarketing, lead generation, e-commerce campaigns, marketplace & app-growth campaigns, CPA / ROAS optimization, campaign structure & scaling.
- **Programmatic & Auction-Based Media Buying:** Google Display & Video 360 / DV360, Google Ads Display and YouTube campaigns, remarketing, audience-based targeting, auction-based media buying, programmatic approach, campaign performance analysis and optimization.
- **Google Ads & E-commerce Focus:** Google Merchant Center, product feed-based campaigns, Shopping and Performance Max optimization, search intent-based campaign planning, brand / non-brand campaign structure, keyword research, negative keyword strategy, bidding strategies, budget optimization.
- **Conversion Rate Optimization & Growth:** CRO, A/B testing, landing page optimization, funnel analysis, offer structure improvement, user behavior analysis, voice-of-customer research, creative testing, growth experiment design and evaluation.
- **Analytics, Tracking & Reporting:** GA4, Google Analytics 360, Google Tag Manager, Server-Side GTM, conversion tracking, enhanced conversions, offline conversion import, tracking audit, Looker Studio dashboards, BigQuery, Power BI, campaign reporting, business KPI analysis, CPA / ROAS / POAS / LTV / CAC performance evaluation.
- **CRM, Marketing Automation & Business Systems:** HubSpot, Salesforce, Mautic, lead management, CRM-based campaign tracking, marketing automation fundamentals, customer acquisition funnel analysis and optimization.
- **Technical & Creative Tools:** WordPress, WooCommerce, Canva, AI-driven creative production, Python, SQL, HTML, CSS, JavaScript, basic web development and landing page creation skills.

- **Industry Experience:** Performance marketing experience across e-commerce, marketplace / app-growth, B2B lead generation, SaaS / subscription, local services, education, wellness / beauty, real estate, and home services.

PROFESSIONAL EXPERIENCE

Freelance

Aug 2025 – Present

PERFORMANCE MARKETING SPECIALIST

- Diagnosed and rebuilt broken acquisition loops for independent clients by conducting a full audit of historical CPM, CTR, CPC, and CPA before introducing campaign changes.
- Restructured campaigns where high lead volume masked low lead quality, integrating CRM offline conversion data (HubSpot, Salesforce) into Google and Meta bidding to prioritize deal value over raw form fills.
- Set up and audited measurement systems using GA4, Server-Side GTM, and enhanced conversions to restore algorithmic signal accuracy lost to browser-side tracking limitations.
- Built client-facing dashboards connecting ad spend directly to CAC, blended ROAS, and customer LTV; explained what to change first and why in plain business language.
- Developed ad copy, creative direction, and landing page messaging aligned to funnel stage and user intent.

Click Brains

2024 – 2025

PPC MANAGER

- Managed high-spend PPC accounts across multiple industries; performed systematic performance audits to identify and eliminate wasteful spend before increasing budget.
- Diagnosed ROAS drops and conversion rate fluctuations by isolating variables: creative fatigue, audience saturation, tracking issues, and landing page friction, addressing root causes rather than adjusting bids blindly.
- Improved lead quality by implementing offline conversion imports and CRM feedback loops, shifting algorithmic optimization away from low-value form fills toward qualified prospects.
- Translated complex multi-channel campaign data into executive-level reports connecting spend, CAC, LTV, and net ROI, giving leadership clear visibility without agency jargon.
- Optimized acquisition processes across Google Ads, Meta, and TikTok simultaneously, reallocating budget to highest-performing segments based on CPA and ROAS efficiency.

Bproduction Agency

2020 – 2024

ONLINE MARKETING SPECIALIST

- Structured cross-channel funnels that forced Google and Meta to acquire buyers rather than just traffic, auditing search intent signals, negative keyword coverage, and audience exclusion layers before scaling spend.
- Diagnosed attribution failures caused by browser-side tracking limitations, deploying Client-Side GTM and pushing for Server-Side implementation to stop data leakage and restore accurate conversion signals.
- Built executive Looker Studio dashboards so founders finally understood their real ROI, connecting ad spend directly to revenue impact without vanity metrics or agency black-box reporting.
- Executed systematic A/B testing to remove behavioral friction from landing pages (headlines, CTAs, form length, social proof placement, offer framing).
- Optimized landing pages and campaign messaging across funnel stages to improve conversion rates.
- Ran continuous testing cycles to support more efficient campaign development.
- Supported SEO projects: onsite SEO optimization, content calendar planning and keyword strategy.
- Google Merchant Center feed optimization: product feed structure, data quality improvement and Shopping campaign setup.

PROOF OF PERFORMANCE

- **\$500,000+** Managed Ad Spend with zero-waste philosophy: systematic audit before scale, negative keyword defense, and creative fatigue rotation.
- **100+** Scaled Campaigns across e-commerce, lead gen, SaaS, local services, and marketplaces.
- **100+** Delivered Projects including tracking rebuilds, funnel restructures, dashboard builds, and full-account audits.
- Multi-industry experience across agency and freelance environments.
- Verifiable track record backed by in-depth case studies and live methodology tools at maurerlajos.com.

EDUCATION & CREDENTIALS

- Google Ads Certifications – Search, Display, Video, Shopping, App campaigns, GA Individual Qualification.
 - CXL Training – A/B Testing, Growth Process, Conversion Research, CRO and User Research.
 - University of Szeged – Business Information Systems, 2016.

LET'S CONNECT

A CV can tell you what someone claims they've done. An interview can tell you how well they talk about it. A practical test shows how they actually think. Skip the guesswork: send me a historical metric snapshot, a sample dashboard with an intentional problem, or an account facing a ROAS plateau. I'll diagnose the issue, explain what I'd change first, and walk you through the math in plain business language.

Email me today at maurerlajos1@gmail.com or call [+36 30 268 5650](tel:+36302685650) to schedule an interview.
