PROFESSIONAL PROFILE

Experimentation-Led Performance Marketer with \$500,000+ in Managed Spend and 100+ Scaled Campaigns.

Specializing in eliminating wasted ad budget and forcing platforms to acquire buyers, not just expensive traffic.

Hello, I am Lajos Maurer. For over 5 years, I have specialized in Paid Acquisition (Google Ads, Meta, TikTok), CRO, voice-of-customer research, and highly technical analytics (GA4, Server-Side GTM). At Bproduction Agency and Click Brains, I rebuilt broken acquisition loops and developed strict protocols that tolerate zero wasted ad budget. I don't just run ads - I restructure funnels to force platforms to deliver measurable ROI.

Imagine having a Growth Manager who proactively rips out broken analytics and replaces them with bulletproof Server-Side GTM to stop data leakage across your entire marketing ecosystem. Imagine an executive Looker Studio dashboard that gives you and your stakeholders transparent, blunt reporting on exactly where the budget is going. Through relentless A/B testing, I fix behavioral UX roadblocks so your company can scale efficiently and predictably.
